

Poppy + Monarch

CONFIDENT. RESILIENT. CHRONICALLY CHILL.

We create apparel and accessories that affirm the chronically ill community and their cherished ones – pieces that spark conversations, build confidence, and show the world who we are with intention and style.

We're especially proud of our **MRISWTR™**, a first-of-its-kind sweater safe for wear inside MRI machines, and during infusions and blood work, complete with non-metal sleeve openings for easy access to veins. The **MRISWTR™** provides comfort when you need it most.

Use code NEWFACE20 for 20% off your next order.
Valid through **3/31/2026**.
